

Time	Session	Topic	Speaker	Chairpersons
9:00-9:15	Pulmonary Perils and Precision Care	Oxygen, CO2 targets and lung–brain physiology in critical illness.	Dr. Jyotirmay Kirtania	Dr. Vinay R. Pandit Dr. Ajoy K. Behra Dr. Monica Malhotraa
9:15-9:30		Revisiting Pneumonia Management: Biomarker-Driven Decisions Adjunctive Corticosteroids and Antibiotics.	Dr.Bikram Gupta	
9:30-9:45		Acute pulmonary embolism: from RV strain physiology to reperfusion therapy.	Dr. T. G. Rangnath	
9:45-10:00		Airway management in the ICU: awake intubation, apneic oxygenation, and induction choice.	Dr. Senthilnathan M.	
10:00-10:15	ARDS Unplugged: What Every Intensivist Should Know	Definition dilemma: Do broader definitions improve care or just overdiagnose?	Dr. Pankaj Kundra	Dr. Sajal De Dr. Dalim K Baidya Dr. Manas R Sahu
10:15-10:30		Controversies in ARDS management: steroids, paralysis, and personalization.	Dr. Anusha Cherian	
10:30-10:45		Prone Positioning in ARDS: Who, When, and How.	Dr. Atul Jindal	
10:45-11:00		P-SILI and spontaneous breathing in ARDS.	Dr. Souvik Maitra	
11:00-11:15 TEA BREAK				
11:15-11:30	Frontiers in Neurocritical Care and Onco-critical Care	Acute ischemic stroke management: current evidences.	Dr. S. Sarvana Sukriya	Dr. Anil Sharma Dr. Pranita Dr. Amit R. Agrawal Dr. Rashmi Dubey
11:30-11:45		Refractory status epilepticus	Dr. Dalim K. Baidya	
11:45-12:00		Thrombosis and hemostatsis challenges in Onco-ICUs.	Dr. Aweek Jayant	
12:00-12:15		Solid tumour crisis in ICU	Dr. Shilpushp Bhosle	
INAUGURATION				
13:00-13:45 LUNCH				
13:45-14:00	From AKI to RRT: Challenges in Renal Critical Care	Renal physiology in critical illness: perfusion, autoregulation, and fluid balance	Dr. Kandaswamy N.	Dr. Vinay Rathore Dr. Souvik Maitra Dr. Mayank Kumar
14:00-14:15		Drug dosing in Extracorporeal Circulation	Dr. Anand Chellappan	
14:15-14:30		Biomarkers in AKI: can they change practice yet?	Dr. Habib Md. R. Karim	
14:30-14:45		Nutritional Prescription in AKI: From Bedside Assessment to CRRT	Dr Jhasketan Meher	
14:45-15:00	The Failing Heart: Critical Care, Mechanical Support, and Recovery	Cardiorenal and cardiopulmonary physiology in shock.	Dr. Arun Andappan	Dr. Muralikrishna Dr. Satyajit Singh Dr. Anil K Goel
15:00-15:15		Inflammation, vasoplegia, and microcirculatory dysfunction in cardiac ICU patients.	Dr. Puneet Goyal	
15:15-15:30		De-resuscitation and late fluid removal in cardiac ICU recovery.	Dr. Samir Samal	
PANEL DISCUSSION				
15:30-16:30	PANEL DISCUSSION Moderator: Dr. Habib Md. R. Karim	Antimicrobial stewardship in ICU	Dr. Nitin R gaikawad Dr. Ujjawala Gaikawad Dr. Prasana K Panda Dr. Anusha Cherian	
16:30-16:45	ECMO Beyond Rescue: Physiology and Evidence	Flow physiology in extracorporeal circulation.	Dr. Molli Kiran	Dr. Subrata K Singha Dr. Aweek Jayant Dr. Pranay Mehsare
16:45-17:00		VA versus VV ECMO selection in borderline mixed cardiopulmonary failure	Dr. Muralikrishna	
17:00-17:15		How much anticoagulation is enough? Thrombosis and bleeding balance	Dr. Balaji Kannamani
